

# Montana Housing Condition Study

## Appendix I - County Tables

### Commercial Dwellings

#### Contents

#### Commercial Structures Used for Residential Purposes

- Table 17:** Commercial Structure Type by Construction Era
- Table 18:** Quality and Workmanship Used in Commercial Building by Construction Era
- Table 19:** Range of Dwelling Units in Commercial Buildings by Construction Era

#### Dwelling Units in Commercial Buildings

- Table 20:** Number of Dwelling Units in Commercial Buildings by Type of Structure and Number of Bedrooms
- Table 21:** Number of Dwelling Units in Commercial Buildings by Type of Structure and Number of Bedrooms
- Table 22:** Physical Condition of Dwelling Units in Commercial Structures<sup>i</sup>

For definitions and further discussion of the results of the study, see the *2005 Housing Condition Study – February 2005*:

<http://housing.mt.gov/Includes/CP/PDF/05HsngCondStdy.pdf>

---

<sup>i</sup> The condition ratings are:

1. Poor – indicates the exterior/interior line is structurally unsound, and that major structural elements require replacement. The interior is dilapidated and does not appear suitable for use.
2. Fair – indicates the exterior/interior line shows marked wear and deterioration but the property is usable for commercial or industrial purposes. It could be characterized as “needing work”.
3. Normal – indicates the exterior/interior lines show only minor signs of physical deterioration due to “wear and tear”. There are few indications of deferred maintenance and no significant repairs or replacements are necessary.
4. Good – indicates the exterior/interior line is in new or “like new” condition. There are no deficiencies in material or construction and no signs of deferred maintenance.

- 
5. Excellent – indicates a major renovation or rehabilitation has taken place. The effective age of the exterior/interior line has been altered to that of a much newer building in good condition. The amount of work done to enhance the appearance and structural soundness is far in excess of that required for normal maintenance.
